Science Technology Engineering Mathematics

Tuesday, February 21, 2023

2:00pm - 3:00pm

2325 Rayburn House Office Building

STEM 101 will focus on providing policymakers with a broad perspective on the current state of science, technology, engineering, and mathematics education and on the major public policy issues involved.

Panelists:

Karen Horting, CEO & Executive Director, Society of Women Engineers
Allyson Knox, Senior Director of Education Policy and Programs, Microsoft
Yvonne Lai, Milton Mohr Associate Professor, University of Nebraska
Rhonda Foxx, Head of Global Corporate Affairs, Solidigm
Moderator: James Brown, Executive Director, STEM Education Coalition
